Frequently Asked Questions

Do I have to serve a specific office with my paperwork?

The Kern County District Attorney's Office will accept service at any of these locations.

Which form of service should I use? Is one better than another?

Service by email or by fax is not mandatory, but there are the methods preferred by the District Attorney's Office.

Can I just hand deliver my paperwork?

"Counter" service is available once again. If you visit these locations in person, you may hand-deliver a photocopy of your paperwork to a designated staff member of the District Attorney's Office who will stamp your other paperwork to act as your Proof of Service.

My server has completed service. What now?

If your server performs service by fax, by email, or by mail, you must complete a separate Proof of Service form to file at the Superior Court along with your other paperwork. You can contact the Law Library to request a blank Proof of Service form, or you may visit courts.ca.gov/forms to retrieve your own.
